

Indicative Industry Impact Summary

The below is a high-level guide only. Whether the additional 12.5% U.S. duty applies will ultimately depend on the specific U.S. HTS classification of the goods and any applicable exemptions.

Industry	Initial Assessment
Apparel & Textiles	Likely to require review.
Furniture & Homewares	Likely to require review.
Consumer Products	Review recommended.
Industrial Machinery & Equipment	Review recommended.
Food & Agriculture	Product-specific review required.
Cosmetics & Personal Care	Review recommended.
Pharmaceuticals & Medical Products	Many products appear exempt.
Automotive	Some exemptions apply.
Steel & Aluminium	Existing trade measures already apply to many products.
Technology & Electronics	Classification review recommended.

Please note: This summary is intended as a general guide only. The application of the additional duty depends on the specific U.S. Harmonized Tariff Schedule (HTS) classification of each product, its country of origin and whether any published exemptions or transitional provisions apply. TCF International can assist in reviewing your products and advising whether the additional duty may be applicable.
